**Principals Report:**

We ended the year with a voluntary return to school. Approximately 50 students attended over the four days a week. We are uncertain what the return to school looks like in the fall, but we are preparing for a full return. If we return to remote learning, feedback from parents has been that they would prefer that all teachers use the same online platform for delivering remote instruction, still with a printed option for students who don't have online access. We were able to lend a lot of technology to families. If families still have chrome books or laptops, we ask that they be returned to the school office.

A silver lining through the period of remote instruction was the level of communication between staff and many of our families. We hope that this continues in the fall.

Grads and their parents put together a very successful socially distant school ceremony, despite the difficulties of needing to adhere to the provincial health guidelines

We are very proud of every one of our graduates. We have had some staffing changes and currently all of our teaching positions are full. We still have vacancies with some of our support staff.

Work has progressed on the transformation of our school totem pole, and we are aiming for a pole raising on June 21, 2021. We are grateful for the talented work of Mervyn Child. Students will be involved as much as possible with the pole project when we return to school in September.

The school office will be open until July 10, and will reopen August 24. Information will be shared after that time about what the school reopening will look like. We hope that all families have a safe and active summer.

**Next PAC Meeting- Sept 17, 2020 at 6:30pm.**
